

Rethink the way you clean! VaporLux the Most Effective Natural Way to Clean & Sanitize.

VaporLux Microbiological Lab Test Results

tested at 72.5 psi

Porcelain Gres (ceramic tile, grout, wood and other porous surfaces)

Surface

Contamination Type	Before VaporLux	After VaporLux
--------------------	-----------------	----------------

E. Coli	115	0
Staphylococcus Aureus	88	0
Streptococcus Faecalis	77	0
Saccharomyses Cerevisiae	98	0
Bacillus Cereus	70	1

Colonies Per Square Centimeter

Stainless Steel (and other metals)

Surface

Contamination Type	Before VaporLux	After VaporLux
--------------------	-----------------	----------------

E. Coli	138	0
Staphylococcus Aureus	100	0
Streptococcus Faecalis	97	0
Saccharomyses Cerevisiae	92	0
Bacillus Cereus	95	0

Colonies Per Square Centimeter

Teflon (and other plastics)

Surface

Contamination Type	Before VaporLux	After VaporLux
--------------------	-----------------	----------------

E. Coli	103	0
Staphylococcus Aureus	100	0
Streptococcus Faecalis	125	0
Saccharomyses Cerevisiae	129	0
Bacillus Cereus	112	2

Colonies Per Square Centimeter
